The Elephant in the Room

This Fellowship takes on a key challenge: the reality that professionals are not well prepared to deal with or talk about death, dying, and grieving families, especially during an era of COVID-19. The Fellowship allows participants to learn, confront, and discuss the legal, medical, social, cultural, familial, and spiritual aspects of death and dying within a multi-disciplinary group in a low-pressure environment. The sessions include opportunities to practice conversation skills, facilitated conversations, and virtual site visits.
